PROFESSIONAL SUMMARY

Skilled Software Developer adept in HTML, CSS, JavaScript, React, Redux, DSA, and Chakra UI. Successfully built web applications during Masai Construct Weeks. Proficient in developing efficient and user-friendly solutions.

EDUCATION

University of mumbai
B.Sc. in computer science
Jun 2018

SKILLS

Technical Skills: Chakra UI, Tailwind css, Responsive Web Design, HTML5, Redux, Git, CSS3, React, JavaScript

Soft Skills: Time Management, Problem Solving, Teamwork, Effective Communication

PROJECTS

edX Academy - Learn at Your Own Pace |

- 🚀 Deployed Link : https://edxacademy.netlify.app/
- ○ Github Repo : https://github.com/NikhilT97/edXacademy
- Developed a course management platform using React.js and Tailwind CSS with secure authentication for student and instructor accounts.
- Implemented instructor-side CRUD operations for efficient course creation, updating, and deletion, as well as student enrollment features.
- Integrated REST API to enhance course browsing with pagination, sorting by difficulty, rating, price, and category filtering options.
- Designed a responsive, mobile-friendly dashboard with progress tracking and interactive Framer Motion animations for improved user experience.
- Deployed the application on Netlify and managed version control with GitHub for streamlined updates and collaboration.

Modesens - Fashion & Lifestyle Store |

- 🚀 Deployed Link : https://majestic-dasik-4f5d39.netlify.app/
- ○ Github Repo : https://github.com/NikhilT97/B43_WEB_001_Code-Crafters
- Developed a fast, responsive online shop interface for men's, women's, kids', and beauty categories using HTML, CSS, and JavaScript.
- Implemented a multi-category product catalog with a sleek, user-friendly layout and smooth navigation.
- Built an interactive shopping cart and checkout flow, enabling users to add, update, or remove items with real-time feedback.
- Created a mobile-first, installable Progressive Web App (PWA) for a seamless experience on all devices.
- Designed instant product search and filtering features using Vanilla JavaScript for efficient product discovery.
