Projects

edX Academy - Learn at Your Own Pace | *React.js, Tailwind CSS, JavaScript, Framer Motion, Context API*
- 🚩 **Deployed Link :** https://edxacademy.netlify.app/
- ○ **Github Repo :** https://github.com/NikhilT97/edXacademy
- Developed a full-stack course management platform using React.js and Tailwind CSS, implementing secure user authentication for both students and instructors.
- Built instructor-side CRUD features to add, update, and delete courses, and enabled student enrollment functionality.
- Integrated a REST API to fetch course data, adding pagination and sorting by difficulty, rating, price, and category for improved user experience.
- Designed a responsive dashboard with progress tracking and animated UI elements using Framer Motion, ensuring seamless deployment on Netlify with GitHub version control.

Modesens - Fashion & Lifestyle Store | *JavaScript, HTML, CSS, Firebase, Axios, Cloudflare Icons*
- 🚩 **Deployed Link :** https://majestic-dasik-4f5d39.netlify.app/
- ○ **Github Repo :** https://github.com/NikhilT97/B43_WEB_001_Code-Crafters
- Designed and developed a multi-category product catalog for Women, Men, Kids, and Beauty with an intuitive user interface using HTML, CSS, and JavaScript.
- Built a smart cart and checkout system enabling efficient item management with smooth interactivity through vanilla JavaScript.
- Implemented a fully responsive, mobile-first layout with Progressive Web App (PWA) features for native app-like installation and experience.
- Integrated instant product search and advanced filtering to enhance product discoverability, utilizing JavaScript for seamless user experience.
- Delivered a pure front-end solution without external frameworks, incorporating Cloudflare Icons for UI elements and leveraging Firebase and Axios for supporting functionalities.
